LATERAL SUPPORTS

Warnings:

- For external use only
- Do not expose to naked flames
- To be used only in conjunction with Simple Stuff Works components and accessories
- Ensure the equipment is free of objects before use
- Ensure correct washing instructions are followed
- To be used only as it is intended
- Ensure the correct size is being used for the individual

Purpose of the device

- The Lateral Supports are designed to support the body in a therapeutically beneficial position
- They can be used in a multitude of ways which will be decided by the prescribing clinician

Instructions for use

1. Prepare the individual prior to placing the Lateral Supports around them
2. Place the Lateral Supports between the two mesh layers in the position and orientation required and ascertained by the prescribing clinician
